CARRER OBJECTIVE

I'm currently pursuing 3rd year engineering in BE in Information Technology. Seeking for entry level position to gain practical knowledge in the IT field and to work efficiently to my fullest potential.

SKILLS

- **TECHNICAL SKILLS**
- **Programming Languages :** C++ | Python
- **Front end :** HTML | CSS | JavaScript
- **Database handling :** MySQL
- **General skills :**Web development | Artificial intelligence
- **Development tool :**VS Code | Git hub
- **TOOLS :** Canva | AI Tools
- **INTERPERSONAL SKILLS :**Self Motivated |Collaborative
- **Currently Learning :**Software Testing

PROJECTS

- **Online Voting System |** HTML | CSS | PHP | MySQL | XAMPP |JavaScript | Bootstrap
- A secure online voting system using PHP, MySQL, and JavaScript. It includes voter authentication, real-time results, and role-based access for administrators. The front-end is built with HTML, CSS, and Bootstrap for a responsive design. This project focused on security, scalability, and efficient data management.

- **Tic-Tac-Toe game |**JavaScript | Bootstrap |HTML | CSS
- A two-player Tic-Tac-Toe game built with JavaScript, HTML, and Bootstrap. It tracks game state, detects winners, and includes a reset feature. The responsive design offers an engaging user experience, helping me develop JavaScript skills and front-end development expertise.

WORKSHOPS /SEMINARS ATTENDED

- Workshop on "Blockchain" | "Web development
- Attended seminars on Software Testing

CERTIFICATES ACHIEVED

Introduction to cloud computing by Coursera.
learning SQL from scratch by Udemy
create a GUI with Python by Udemy
How to make AI videos : Mastering AI Text-To-Video Creation by Udemy

EDUCATION

- B.E INFORMATION TECHNOLOGY
   Shree Rayeshwar Institute Of Engineering And Information Technology -2022-2026
   -Completed Semester 5 with 8.68 SGPA

LANGUAES

- English
- Hindi
